WELCOME TO HARRIET HEMSLEY PHOTOGRAPHY

CAPTURING MOMENTS
THAT TURN INTO
MEMORIES

HI!

Pregnancy and motherhood is such a magical and wonderful change in a woman's life, that I believe can be celebrated and captured. Moments and memories fade but photographs last. With each pregnancy and child being unique, your photos should tell the last chapter of your pregnancy journey before the time comes you meet your mini me, as before you know it your baby will soon be here.

The journey you are about to embark on will be your biggest yet! So your time with me will be easy, relaxed and enjoyable making the most out of your bump and/or sleepy tiny baby.

Harriet x

ABOUT ME & HOW I WORK

If I was to describe my style in three words it would be natural, relaxed and authentic.

There will be no pressure put on you to show your bump or baby in any way you don't want to. Motherhood can make some women feel amazing, others not so. I'm here for both the confident mums who are prepared to show your bump and body in all your pregnant glory but also those who prefer to stay more modest.

Your baby will be new to this world and you may be a first time mum. If your baby is hungry, needs a nappy change or needs a cuddle. I will stop and let you intervene (I'm happy to help in anyway I can, I don't mind a poopy nappy!). Alternatively, if you are tired and need a 10 min nap, a lay down or even a shower go for it! I'm fully DBS checked, so I can assure you and your baby are in safe hands.

I work on location, so I will travel to you whether that be a local park or your home. Don't worry too much if you don't know where you want your to shoot to be, I will help you pick some great locations near or local to you.

WHAT HAVE OTHERS SAID?

"After being told I wouldn't be able to have children we were overjoyed when the pink line appeared one day. I knew from day one I wanted to capture every moment. I started looking at pregnancy photoshoots but didn't book anything as I didn't feel confident in front of the camera.

Harriet was recommended to us, I got in contact and she immediately put me at ease and on the day made me feel comfortable in her studio taking on board our ideas to get the perfect pictures. I was so happy the photos I booked the newborn shoot as well. We would highly recommend and will definitely use her again if we are lucky enough to fall pregnant again." - Megan and Luke

"You're amazing! My photos came out perfect!
I was so scared when I asked you to take photos, because I was so insecure about how my body has changed throughout my pregnancy. But you made me feel so at ease and so comfortable! I can't wait for you to do the baby's newborn shoot
Thank you" - Charlotte

MATERNITY

Best time to shoot is when you are between 28-35 weeks, however this is completely down to you and how you are feeling. My recommendation is to book this at least a month in advance.

£200

- Available at home or at an agreed location;
- 20-40 final images edited in both colour and black and white;
- Your session will last up to 1.5 hours;
- Your photos will be available to view on an online private gallery for 3 months after your shoot.

NEWBORN

Newborn portrait shoots include a few accessory changes but mainly focuses specifically on your tiny human.

For the best results, your bundle of joy should be no older than 4 weeks as the smaller they are, the happier they are to be moved as they tend to sleep more.

Recommended to book to secure your shoot when you are around 35 weeks or earlier, but final date of shoot will be organised once baby is here.

Pop me a message when they arrive and we shall settle the final date then.

£275

- Done in the comfort of your home;
- 25-50 final images edited in both colour and black and white;
- Your session will last up to 3 hours;
- Your photos will be available to view on an online private gallery for 3 months after your shoot.

NOT SO NEWBORN

Not all babies come into the world without complications, and some have been born in a pandemic. This shoot is designed for being able to capture moments that may have to happen outside of the two week teeny tiny baby stage.

This shoot is also best suited to included siblings and family.

Recommended to book when you are around 35 weeks or earlier, but final date of shoot will be organised once baby is here, pop me a message when they arrive and we shall settle the final date then.

£275

- Done in the comfort of your home;
- 25-50 final images edited in both colour and black and white;
- Your session will last up to 3 hours;
- Your photos will be available to view on an online private gallery for 3 months after your shoot.

WHAT'S THE DIFFERENCE BETWEEN NEWBORN & NOT SO NEWBORN?

Newborn photography is predominately focused more on your baby and their gorgeous tiny features, normally in a sleepy state. White backdrop predominately but can include some different colours, few small cute props but nothing to detract from your baby's beautiful little features.

Not so newborn is a more relaxed, family orientated style of photography. Less formal, little or no backdrops and props and just pure family love. Real moments using what you have in your own home.

Aspects of both can be included in the shoot but if you would prefer one style more than the other, please just let me know.

CAN PARENTS HAVE PHOTOS TOO?

Absolutely! I love taking these shots. You can just see the love and its magical. I also think it's so important to have these photos with your precious new baby, as they are only that small for such a short amount of time. The last thing I would want is for you to look back at your photos and regret not being in some with your new son/daughter. New mama's please don't let the postpartum blues or lack of self confidence stop you having these photos, you are beautiful!

WHAT TO WEAR & OTHER INFORMATION

Not sure what to wear?

Don't panic!

Mamas, I've got your back.

I have a dedicated guide all about what you can wear on your shoot, to make your decision of picking an outfit as easy as possible. I've even collaborated with a stylist and this will be sent to you in due course once you have booked!

Shoots include travel up to 15 miles from SE12/DA5. A 45p per mile travel charge will be added to locations over this.

Surcharge fee of £25 for any beach locations

THE PROCESS

Want to know a little more about how it works? Here's an overview:

- 1 General enquiry
- 2 Shoot confirmation and contract signed
- 3 Welcome guide and style guide
- 4 Shoot
- 5 Editing process starts
- 6 Online Gallery sent

BOOK YOUR SESSION

Like what you've seen?

Get in touch to get booked in, with what type of session you are after.

If you are looking to book a maternity session I recommend booking in between 30-36 weeks at the latest.

For newborns I recommend 2-14 days but I shoot babies up to 3 months old, let me know your due date and we will go from there.

What happens after you book?

I will be in touch to confirm all details and send over the contract/payment information. Shortly followed by a welcome guide and my what to wear styling guide which contains all the information for the next few steps of what's coming up.

But in the mean time you can contact me through any of the following:
