CAPTURING MOMENTS
THAT TURN INTO
MEMORIES

HI!

Family life can be hectic. Amongst the chaos, moments and memories are continually made but not always captured. As your family continues to grow, in either size or by number, I think it's important to capture all the moments that turn into memories, as these moments fade fast but photographs last.

I love photographing families and children! It's such a wonderful moment to capture individual personalities through a photo, especially children. Each passing day, children grow bigger and bigger. The changes in them as they learn and grow is phenomenal. Watching my friends' children grow up, and from holding them in my arms as a newborn to seeing them turn into toddlers, even I can't believe how quick they grow! I can't imagine what that must be like for you as a parent.

ABOUT ME & HOW I WORK

If I was to describe my style in three words it would be natural, relaxed and authentic.

I want to capture all the smiles and giggles as they happen for you to cherish but I know these can sometimes be hard to achieve. I have plenty of tricks up my sleeve that will hopefully mean I get all the smiles, and lots of laughter, even if it means I have to be silly in the process to get them.

I work on location, so I will travel to you whether that be a local park or your home. Don't worry too much if you don't know where you want your shoot to be, I will help you pick some great locations near or local to you.

WHAT HAVE OTHERS SAID?

"Harriet is such a talented young lady. She's done a few photo shoots of my family and never fails to amaze me with her photos. She is also very kind and welcoming and amazing with children and making them feel at ease to get the best possible pictures of them." - Danielle

"Harriet was amazing and has the patience of a saint! I would highly recommend her to anyone & Look forward to using her again in the future!" - Sapphire

"Harriet is absolutely amazing with my 4 year old, the smiles and laughs she gets from him are full of genuine happiness and joy. She has such a bubbly personality which shines through and creates such a wonderful atmosphere during the shoots and the photos that she captures are amazing. Our most recent Xmas mini shoot proofs brought tears to my eyes as she captured my son's personality perfectly! And the Mother's Day mini photos are ones that I will treasure for ever. It's not often that I get photos with my boy but I wouldn't choose anyone else to capture the memories for my family" - Crystal

CAKE SMASH & SPLASH SHOOT

A perfect way to celebrate your baby's first birthday!

This package includes the backdrop, cake stand and decorative set up. The cake and any extra decorations (balloons for example) are to be arranged by you.

I recommend that the cake does not have fondant (hard) icing on it as it needs to be soft enough for your little one to smash it to pieces.

£250

This shoot will start with detail shots and portrait shots prior to smash, the smash itself and to finish a bubble bath afterwards to get the majority of the cake off for you.

Please book at least two months in advance. So if necessary I can source your decorations for themed set ups.
